BURINEUR PLAFOND ENS103329 / ENS103398

CEILING CHISELLING SET, ELECTRIC OR PNEUMATIC OPTION

Set shown with the pneumatic option.

The **BURINEUR PLAFOND** is a ceiling chiselling set for plasters, two-component coatings and renders. It combines the **ELAND Premium** carrier trolley with telescopic rack mast, a chiselling arm with remote control fitted at the mast head, and a breaker of your choice.

The arm carries the breaker to the ceiling: you guide the set from the arm handles, to the side of the chiselled area, and chisel in successive passes with the trolley braked, then move it to the next area.

Two options, same trolley and same arm: **electric** with the DUSS PX 78 rotary hammer, or **pneumatic** with the Scrap'Air S38 Medium compressed-air breaker.

Height is adjusted with the mast crank. The remote dead-man control at the arm handles only runs the breaker while you hold it. With the pneumatic option, a spray nozzle kit moistens the area to be chiselled to limit dust release.

SPECIFICATIONS

CARRIER TROLLEY	**ELAND Premium, CPO100405**
MAST	**Telescopic rack mast, crank**
CHISELLING ARM	**Remote control, BPO103383**
CONTROL	**Dead-man, at the arm handles**
MAX PERMISSIBLE LOAD	**135 kg, complete assembly**

ELECTRIC OPTION — ENS103329

BREAKER	**DUSS PX 78, PBU103394**
POWER	**1,500 W**
BREAKER WEIGHT	**7.6 kg**
FITTING	**SDS-max**
SUPPLIED WITH	**Rear stabiliser SE102983**

PNEUMATIC OPTION — ENS103398

BREAKER	**Scrap'Air S38 Medium, BUR103506**
WEIGHT OF THE SET	**64.2 kg**
PNEUMATIC PRESSURE	**2 / 6 bar**
SUPPLIED WITH	**Spray nozzle kit AP102964**

SUPPLIED WITH

ELAND Premium trolley and rack mast

- **Optional accessories:** dust extraction system (H-class vacuum recommended), dust and debris collector or big bag on Ø300 mm wheels.
- **Never stand under the chisel** or the arm head: hard hat, safety glasses, hearing protection, at least a P2 mask, P3 as a minimum on asbestos sites.
- **PX 78 data** published by its manufacturer, for information. Noise and vibration: see the manual of the fitted breaker.
- **24-month manufacturer warranty** on the trolley and the arm; the breaker is covered by its own manufacturer's warranty.
