

AUTOMATIC SANDER

AUTOMATIC SANDER 3 HEADS - WALL

Designed for large sanding areas and high-dust environments, the **AUTOMATIC SANDER** is fully equipped with waterproof brushless motors. The machine's movement is carried out by autonomous battery-powered tracks, allowing it to be guided towards a wall. Wall positioning is achieved using an integrated vacuum pump to maintain the appropriate pressure for coating removal. Each pass removes the coating from 1.5 square meters, with the head's diameter measuring 680 mm. The scrolling speed is adjustable depending on the coating to be removed, ranging from 0.2 to 4 meters per minute.

PROTECTION INDEX	IP65
WEIGHT.....	395 kg
SOUND LEVEL	63 dB
Ø PLATES	720 mm
POWER OUTPUT	4 950 W
VIBRATION	0,45 M.S ²
BORE	DAISY
ROTATION	500 - 4800 RPM
VOLTAGE	380 V
DIMENSIONS	2,20 x 0,82 x 0,62 m

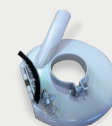

ACCESSORIES

Spray nozzle

Diamond plate Ø165

Dust Shroud (individual or global)
