

# GAZELLOMUR PLANE

## SEMI-AUTOMATIC PLANE

ENS103385

Left/Right Working Arm Rotation

Electric vertical motion of the head with a joystick

LED lighting

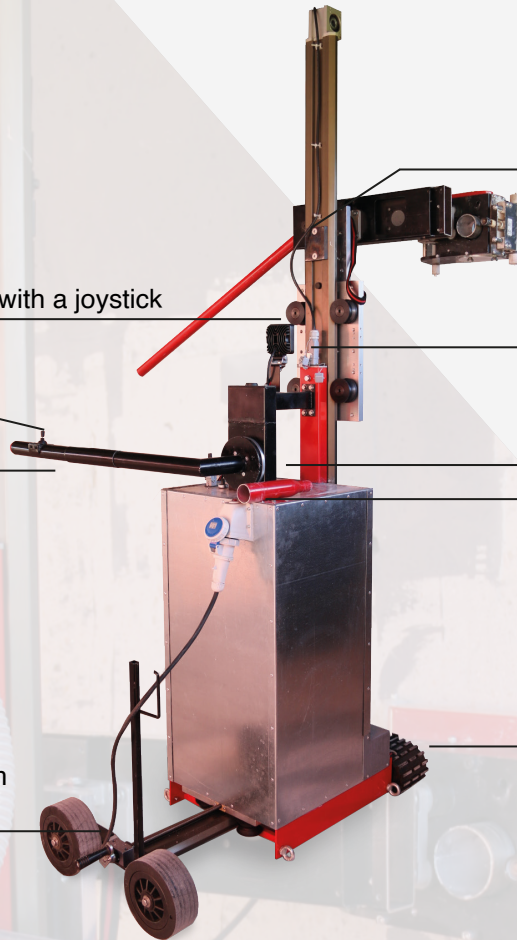

180° rotation of the holding arm

Safety thanks to a vacuum sensor

Suction connection Ø 50 mm

Electrical motion by low voltage track

Variable wheelbase - 0,78 to 1,15 m

The **PLANING GAZELLOMUR** is a semi-automatic plane that will allow you to plane the walls without any effort, mainly used in demolition, asbestos removal and dismantling. Its brushless motor allows to have a machine without noise, without vibrations with increased longevity, while being waterproof (IP65).

This machine can remove up to a depth of **1,3 mm on plaster** and **0,8 mm on concrete** in one in a single pass.

The central mast is foldable and foldable without disassembly to facilitate transport and accessibility.

This machine must be used with an **industrial vacuum at LONGOPAC©**

PROTECTION FACTOR .....	IP65
WEIGHT .....	134 kg
SOUND LEVEL .....	60 dB
Ø DRUM .....	100 mm
POWER OUTPUT .....	2 200 W
VIBRATION .....	0,35 M.S <sup>2</sup>
ROTATION .....	4800 RPM
VOLTAGE .....	110 V / 220 V
DIMENSIONS .....	1,10 x 0,56 x 1,70 m

### ACCESSORIES

DIAMOND DRUMS Ø100
