

DESMAN RAI102822
CRACK CHASER - WALL & FLOOR

The **DESMAN CRACK CHASER** has been developed with our brushless motors (noiseless, vibrationfree, increased longevity, and waterproof) for renovation, construction, demolition, asbestos removal, and dismantling purposes.

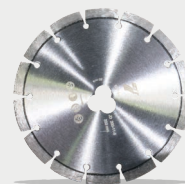

This **CRACK CHASER** allows you to perform heavy-duty tasks such as removing plaster, resin, bitumen, and more.

The **DESMAN** is compatible with various ergonomics tools from our range, making wall sanding effortless.

This machine must be used with an **IP65 electronic speed controller** and an **industrial vacuum with LONGOPAC® for proper operation.**
